

Adamastos Sailing | Where to Go !

<https://adamastossailing.gr/>

Scorpios Skorpios was once the private island of Greek shipping billionaire Aristotle Onassis who lived there with Jacqueline Kennedy. Since Skorpios was sold to Rybolovlev, the whole island has become a forbidden area.	Private island	
Madouri – Lefkas Not recommended for anchoring. Boats and ferries can generate swell.		
Desimi – Lefkas The bottom is sand with seaweed patches. The anchor holds good or very good.		

Vathi - Meganisi The bottom is mud seaweed. The anchor holds good or very good.		
Atheni – Meganisi There is a reef, which is running out into the middle of the bay. Most of it is under the waterline. The anchor holds good or very good Boats and ferries generate swell. Make sure the anchor holds well.		
Formikoula The bottom is sand and seaweed patches. The anchor holds good or very good. Not recommended for overnight stay.		
Kalamos - port The bottom is sand with seaweed patches. The anchor holds good or very good. If mooring in the small harbor, watch out for the ferries and expect a swell.		

Kalamos – Agios Donatos The bottom is sand. The anchor holds good or very good.	 A compass rose with four main points labeled N (North), E (East), S (South), and W (West). The North and South points are red, while the East and West points are green. There are smaller black arrows pointing in between the main directions.	 A photograph of a small, single-story stone chapel with a tiled roof, situated on a rocky peninsula overlooking the sea. The chapel has a central arched doorway and small windows. The surrounding area is lush with green trees and vegetation.
Kastos The bottom is sand with seaweed patches. The anchor holds good or very good.	 A compass rose with four main points labeled N (North), E (East), S (South), and W (West). The North and South points are red, while the East and West points are green. There are smaller black arrows pointing in between the main directions.	 A photograph of a harbor with several sailboats anchored. The water is a deep blue, and the surrounding land is covered in green trees and vegetation. The sky is clear and blue.
Atokos The bottom is sand. The anchor holds good or very good. Anchorage offers shelter on calm NW winds only.	 A compass rose with four main points labeled N (North), E (East), S (South), and W (West). The North and South points are red, while the East and West points are green. There are smaller black arrows pointing in between the main directions.	 A photograph of a bay with several sailboats anchored. The water is a deep blue, and the surrounding land is covered in green trees and vegetation. The sky is clear and blue.
Gidaki - Ithaki The bottom is sand with seaweed patches. The anchor holds good or very good	 A compass rose with four main points labeled N (North), E (East), S (South), and W (West). The North and South points are red, while the East and West points are green. There are smaller black arrows pointing in between the main directions.	 A photograph of a bay with several sailboats anchored. The water is a deep blue, and the surrounding land is covered in green trees and vegetation. The sky is clear and blue.

Marmaga – Ithaki The bottom is sand with seaweed. The anchor holds good or very good to moderate.		
Afales - Ithaki The bottom is sand and rock. The anchor holds good or very good.		
Fiskardo - Kefalonia The bottom is sand with seaweed patches. The anchor holds good or very good to moderate. If it is congested, a nice alternative is the cove on your left entering Fiskardo bay. Use long shoreline.		
Sivota – Lefkas The bottom is mud with seaweed. The anchor holds good or very good.		
Papanikolis Cave – Meganisi The bottom is sand, rock and seaweed patches. Not for overnight stay.		
Green: wind protection Red: dangerous wind and/or swell
